Tempered Glass With Easy Clean Feature

Glass is a major component in the shower enclosure. So utmost care should be taken while using Glass in the shower enclosure. Raw float glass or heat treated glass should never be used in shower enclosure. Jaquar, keeping safety on priority, uses highest quality of toughened or tempered glass - manufactured in Jaquar's own fully automated state-of-the-art tempering unit, as per the Indian and European safety norms. These standards ensure that the glass passes through stringent quality checks ensuring consistency and safety, thus enhancing the life of the shower enclosures.

All the Jaquar Shower Enclosures have special hydrophobic treatment on the inner surface of the glass. This treatment repels water, oil, soap and helps to keep the glass clean with minimum effort. It prevents bacterial growth, stops lime-scale build up and water spots on the glass.

Jaquar offers a variety of models with different glass options like: clear glass, extra clear glass, frosted glass and textured glass with a variety of patterns. These patterns add elegance to your bathroom décor and provides uniqueness to your enclosures.

Textured & Frosted Glass

Textured glass has a repeating shallow pattern that is available in different styles. It enhances the overall look of the bathroom. Several styles to choose from :

Features:

- Permanent. Images won't fade, peel, scratch or crack
- Control over opacity

Textured Glass:

Unique and Handcrafted designs on the glass. As the patterns are not geometric in shape, each and every piece of enclosure are unique and different to each other. The textured designs on the glass are patterns without losing the transparency of the glass.

Frosted Glass:

The sand blasted frosted glass makes the enclosure opaque which provides more privacy condition. The geometric frosted shaped provide more option of design to a shower enclosure.
