

RAINBEAM

by

Artize

A PLEASURE AS PURE AS A
MOONBEAM

A simple design of striking beauty. A tiltable shower head that rains down beams of soothing water, caressing skin like moonbeams and sunlight. A lightweight hand shower for added convenience. The Rainbeam by Artize is a perfect, modern match for a minimal bath interior seeking a full sensory indulgence in the shower.

SCULPTED, CHISELED,
DELICATELY PERFECTED

Featuring lines created as though by a chisel from a cylinder, the finely balanced form of the Rainbeam shower head is complemented by its beautifully tactile surface. The soft texture's innovative pattern of truncated pyramidal nozzles delivers a full flow of soft, streaming jets of raindrops.

THE RAINBEAM

TREATS YOU TO A TONING MASSAGE WITH ITS FLOW,
AND TRANSFORMS YOUR SHOWER INTO A TIME OF
FOCUSED WELLBEING.
