INTRODUCING
OCTANE SHOWERS
POWER. PRECISION. PERFORMANCE

Jaquar's newest range of showers, Octane blends bold design with intuitive control to shape a shower experience that feels as refined as it looks.

- Slider control for effortless mode switching
- Easy to clean Rubit nozzles for long-lasting performance

SLIDER OVERHEAD AND HAND SHOWERS

Enjoy a truly personalised shower experience with multiple spray intensities designed to match every mood and moment. With three distinct spray modes and an easy slider control, the shower lets you shift effortlessly between a soft, calming spray to a fuller, more revitalising spray.

EASY SLIDER CONTROL

Slide
left or right

Slide
up or down

Slide through multiple spray intensities with the 3 modes. From a refreshing mist to a full, immersive spray, each setting offers a personalised spa-like experience. The sliding mechanism ensures seamless adjustment, letting you fine-tune the spray pattern and intensity to your mood - all in one elegant, intuitive motion.

3 SPRAY MODES
DESIGNED WITH MULTIPLE
INTENSITIES FOR EFFORTLESS COMFORT

A soft, gentle spray that soothes and relaxes

A fine, focused spray for precise and refreshing coverage

A full, immersive downpour that mimics natural rainfall

FLOW-ADAPTIVE NOZZLES

Nozzle contracts at low water pressure

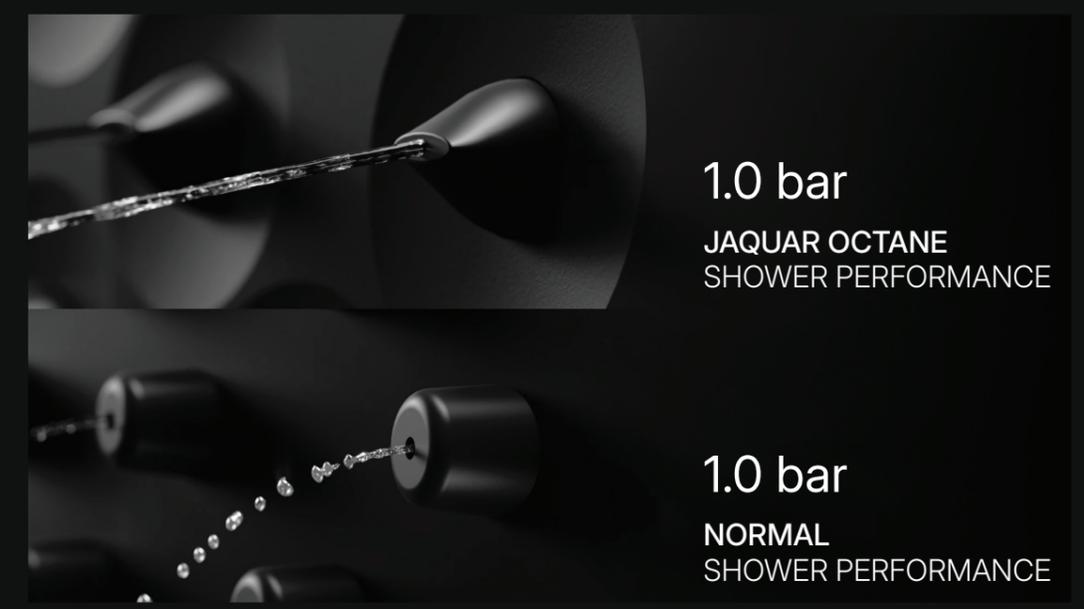

Nozzle expands at high water pressure

- **Revolutionary flexible nozzle** technology that intelligently adapts to both low and high water pressure, ensuring a consistently balanced and comfortable shower experience
- **Enhanced spray performance at low water pressure**, as the nozzles contract to a smaller diameter, concentrating the flow for a stronger, more satisfying spray
- **Smooth and uniform spray delivery at high water pressure**, with nozzles expanding in diameter to evenly distribute water and prevent harshness
- **Automatic limescale removal**, since the flexible nozzle structure dislodges particulate deposits, maintaining optimal performance and hygiene over time

PERFECT FLOW
NO MATTER THE PRESSURE

OCTANE ROTOR HAND SHOWER

Designed for those who seek performance with precision, the Octane Rotor Hand Shower features an innovative rotor mechanism paired with a button control to deliver a dynamic shower experience.

The advanced hydro-rotor technology uses the energy of flowing water to create controlled movement within the spray system, resulting in improved coverage. Seamlessly switch between three distinct spray modes with a single press.
