COMPLETE
WELLNESS
SOLUTIONS

In today's fast-paced life, stress and pressure are preventing us from living fulfilling, happy lives. The need to relax and rejuvenate has never been felt more.

We could regain our peace of mind and physical health simply by letting water work its magic on us – just like it has done for thousands of years, with ponds, streams and waterfalls.

Water
to heal your
mind.

Jaquar Wellness solutions offer an advanced and exquisite range of bathing products that uses water to restore physical and mental wellbeing.

Bring home the soothing power of hydro massage, airpool jets invigorating steam, chromotherapy lights and much more.

Wellness at a glance

Spas

Spas are a wonderful way to relax and restore equilibrium. Jaquar's spa models are technological marvels whose 'well being circuits' comprise of various seats and a common footrest in the centre. Each seat is strategically fitted with different types of massage jets in various positions, oriented to massage different parts of the body. By moving from one seat to the other, one can enjoy a complete and satisfying massage that stimulates and relaxes all parts of the body. Cushioned headrests, ergonomic seats and a host of high performance features make this the ultimate home spa experience.

Why Spas?

More economy

An array of energy efficient technologies make our spas more economical to run and easier to enjoy more often without worrying about power consumption.

Cleaner, healthier water

Unlike swimming pools, Jaquar spas don't use harsh chemicals that can be harmful for the skin. Our spas feature advanced water treatment technologies to ensure the cleanest, clearest water.

A superior experience

Jaquar spas have superior hydrotherapy performance and features that are usually reserved for the world's most expensive spas.

Guaranteed to last longer

Every Jaquar spa is hand crafted using industry-leading techniques and materials, which is why we can guarantee the spa shell for 10 years.

Easier to maintain

Jaquar spas give you the ultimate in easy care spa ownership without needing to spend much time on maintenance, or have a degree in chemistry to enjoy crystal clear water.

Features of Spas

Technologies that save energy and money

To let you enjoy using them without worrying about the power bill, Jaquar spas come with a whole range of energy efficient technologies.

Cabinet Insulation

Jaquar spas have insulation in the perimeter of their cabinets to maintain the warmth of the water, and the spa's plumbing and equipment, further reducing your energy costs.

Intelligent Thermal Regulation

Allows the spa to tune itself to its environment, day-to-day and season-to-season, thus reducing your heating costs by up to 20%.

Smart meter ready

Using Power Save software, Jaquar spas can be designed to do the filtering and heating when power costs are at their lowest. You can tailor the operation of your Jaquar spa to take advantage of smart meter technology and reduce your running costs.

Micro Filtration

The top priority is to remove waterborne contaminants.

Hydroflow jets

A Jaquar spa's hydroflow jets are designed to maximise jet pressure and provide a world-class hydrotherapy experience giving different massage action in each seat.

Ergonomic design

Jaquar spas are designed to maximise your comfort. Jets are positioned to massage tired muscles. The controls are within easy reach. And relaxation comes automatically.

Easy to operate

Jaquar spa control systems are intuitive and easy to operate and offer maximum flexibility and control. The top side panel controls most functions with one touch of a button. More advanced controls can be accessed through the simple English menu functions.

Two lounger seats

To avoid arguments over who gets the spa's lounger (usually the most comfortable and most coveted seat in the spa), most Jaquar spas have two luxurious hydrotherapy loungers.

Individual pressure control

To ensure complete satisfaction for all, each seat in your Jaquar spa can be controlled with the seat's pressure control dial. In addition, most jets can be individually controlled, directing pressure to where you need it most.

Dynamic lighting options

Flood lighting, jet lights, backlit drink holders and water features, waterline illumination and access lighting can all be added to your Jaquar spa to enhance your experience. Lighting programs can be controlled using the spa's topside controller.

Neck therapy collar

Optional on most Jaquar models, the neck therapy collar incorporates jets specially designed to eliminate stress and tension carried in the neck and shoulder area. Opt for the neck therapy collar to soothe away the stresses of your day.

Spa Health Indicator

Your Jaquar Spa is also equipped with an early warning 'Spa Health Indicator' light. This light comes on to indicate that the product needs service, maintenance or attention to verify any fault that may arise, and to prevent chances of damage.

Saunas

A Sauna is a bathhouse or room, usually made of wood, which uses dry heat to induce perspiration, with steam being produced by pouring water on heated stones. Perspiration or sweating is one of the main ways our bodies get rid of the traces of hundreds of toxins that accumulate inside us from pesticides, drugs and manmade chemicals. 15 minutes in a Jaquar sauna can help us sweat as much as we might otherwise do over an entire day or more. And the benefits of this aid in many medical conditions.

Why Saunas?

Jaquar, renowned for its cutting-edge design, offers both infrared and convection heat saunas. Catering to diverse preferences, their saunas blend luxury with wellness, providing a rejuvenating experience that harnesses the benefits of both heating technologies to soothe, relax, and invigorate users in a state-of-the-art setting.

Infrared Saunas:

Infrared saunas use light to create heat, directly warming the body without warming the air around you, which may aid in deeper detoxification and relaxation.

Convection Heat Saunas:

Convection heat saunas warm the air to heat the body, potentially improving cardiovascular health and inducing a more traditional, intense sauna experience.

Detoxification

Saunas stimulate the body to release fat-soluble toxins, heavy metals, and other toxic chemicals in sweat via pores more effectively than any other form of heat therapy or exercise. Reports have shown that it can relieve the symptoms of drug-induced lupus. The list of chemicals claimed to be removed from the body includes: mercury, lead, copper, cadmium, manganese, sodium, chloride, arsenic, nickel, benzenes, street drugs, prescription drugs, anaesthetics, cholesterol, urea, nicotine, sulfuric acid.

Immune System Enhancement. A typical sauna session will cause a brief 1 to 3 degree F increase in body temperature. Fever is the body's defence against bacteria, microbes and consequent infection. The production of white blood cells by the bone marrow and killer T cells by the thymus results in boosting immunity, overall.

Stress Relief

Continuous strain on the autonomic nervous system leads to a high level of stress, one of the elusive causes of many chronic diseases.

Pain Relief and Control

It helps in relieving muscular pain, cardiovascular and other skin conditions

Skin Cleaning and Rejuvenation

Saunas open clogged pores allowing for removal of dirt, oil, and makeup. In addition, there are improvements in skin problems such as acne, rashes, burns, eczema and psoriasis. Scars, even keloids, may be gradually softened.

Whirlpools

Jaquar proudly presents its own range of whirlpools. Created by specialist designers from Europe and made in Jaquar's state-of-the-art manufacturing facilities.

Jaquar whirlpools bring wellness into your home with great style and panache. Their jets project water in a flowing, circular motion, which offers a wide array of health benefits, including relaxation, improved blood circulation and sore muscle and joint relief. Whatever you desire, whether hot or cold water massages, long relaxing soaks or even chromotherapy, a Jaquar whirlpool gives you all these and more. Easy to use functions flawlessly switch water modes for your benefit.

Why Whirlpools?

Hydromassage

A gentle jet stream massage bath that stimulates from the surface of the skin onwards. The deep tissue massage stimulates blood vessels and nerve endings, and relaxes your body's entire muscular system

Air Massage

An infinite number of air bubbles provide a caressing sensation on the skin and allow the water's soothing warmth to penetrate deeper into the body's tissue. This sensational feeling, akin to weightlessness, is accompanied by a deep experience of healing warmth.

Chromotherapy

The use of various coloured lights offers additional therapeutic benefits when used in conjunction with the whirlpool's massage. These include:

Green: has harmonious effects on the digestive system.

Yellow: radiates sun-like warmth on the body.

Blue: is calming and soothing and lets you float away in to your dreams.

Red: infuses energy and vitality, giving lost strength to the entire system.

Features

The unbeatable product features are:

- Brilliant surface of sanitary acrylic
- Antibac® hygienic surface
- Increased chemical resistance
- High break strength
- Long life
- Excellent design possibilities
- Easyglide® layer
- Low specific weight
- Recyclable
- Repairable

Special transparent acrylic top layer has a high chemical resistance to: cleaning agents, perfumed foams, household detergents, body care products. It prevents surface defects, crazing/cracking, decoloration and colour fading

Special polymer for better mechanical resistance to impact and temperature

Polyurethane layer is recyclable and uses eco-friendly materials with high insulation that retain the temperature for a longer period than FRP

Safety Vacuum Breaker

This is one of the important safety features installed in Jaquar whirlpools. In case of blockage in the suction point the motor switches off automatically.

No Bacteria Formation.

Fresh Water Everytime
The water pipes connect via Y-shaped housings, creating a bow which ensures the complete drainage of water. Unpleasant odours and, even worse, bacteria are thus avoided.

Environment Friendly

The pipes are made from special Food Grade PVC. These pipes have an anti bacterial coating on the inner side so that even if some drops of water stay behind after the tub is drained, there won't be any bacteria formation in the water droplets.

3 Tier Test

Each and every Jaquar whirlpool goes through a functional test with hot water after which it is tested on a European test machine for earthing resistance, insulation test and a high voltage test.

Easy To Use

The electronic keypad control activates all the hydromassage functions, to regulate Airpool intensity. All electronic parts can be installed and removed on site, thus making after-sales, what it should ideally be - a service !

Water jets

The effectiveness of the hydromassage is enhanced by how the water flow can be adjusted in intensity and direction to suit personal needs, in order to gently massage delicate areas.

Airpool jet

The airpool jets provide a gentle and delicate massage on your spine, which increases the sensation of warmth in the body and has beneficial effects on the back. The air bubbles open the insulation layer by oxygenating the body.

PMMA sheet

Jaquar whirlpools are made of the highest grade of PMMA acrylic sheet

Air suction valve

To enable suction of atmospheric air, and distribute it to each and every water jet to boost the jet pressure.

Freestanding Bathtubs

Bathtubs are for more than just bathing. They can be an oasis of peace and calm. Jaquar's freestanding bathtubs set the mood perfectly for those precious moments of relaxation with their beautiful lines and curves, which invite you to step in and indulge yourself at the end of a long day. For those who have the luxury of space in their bathroom, a chic, freestanding Jaquar bathtub placed away from the walls makes a stunning statement of style and class.

Built-in Bathtubs

The more common and practical choice in bathtubs, the built-in or 'drop-in' bathtub is preferred wherever space is at a premium. Because they are placed adjacent to a wall and tucked away, built-in bathtubs are space-economical and can also offer additional storage on the surrounding ledges or the walls next to them. Perfect for placing an aromatic candle or two while you soak in the bubble bath and unwind!

Steam Solutions

For those seeking wellness in the comfort of their homes, a Jaquar steam solutions is a great way to enjoy the benefits of humidifying water vapour from a high-quality steam generator.

Why Steam Solutions?

Features

Absolute Quality of Materials

Jaquar hydromassage showers are made of co-extruded acrylic, which does not discolour and has a long life. This hygienic material, together with the smooth surfaces and tempered glass shower enclosures, makes cleaning an easy part of the product experience.

Advantages:

Stability and Mechanical Resistance

Jaquar shower boxes are characterised by stability and solidity thanks to the zinc-plated steel frame that ensures maximum rigidity of all the components. Stability and mechanical resistance are also the attributes of the shower tray reinforcement.

Easy Installation

The installation of the shower boxes is as easy as it can be: the metal frame carries the elements and is simply put together.

Digital Control

It allows you to manage all manual control functions including sequential back rain jets, back jets, waterfall cervical massage, duration of vertical hydromassage, steam bath function, light, radio and white LED lighting

Control Units

All the hydromassage shower functions can be simply adjusted through easy-to-use control units.

Manual Control

It allows you to manage the shower head and vertical jets, as well as activate the steam-bath function.

Benefits:**Clearer skin**

Steam showers have the ability to unclog pores and remove deeply trapped congestion from under the surface of the skin

Infection treatment

A major benefit of regular steam showers is relief from respiratory infections

Increased circulation

Steam showers are an excellent way to naturally boost circulation throughout the body. Increased circulation brings more oxygen to cells and decreases the risk of hypertension, hardened arteries and muscle function

Stress relief

One of the most powerful benefits of steam showers is their ability to reduce both physical and mental stress

World-class whirlpools. Proudly made by Jaquar in India.

Jaquar whirlpools are made in Jaquar's own, state-of-the-art manufacturing facilities. Using the finest raw materials and components, including imported PMMA sheets and high quality fittings, wiring and pumps, Jaquar creates products that will serve you for years and years.

The processes use too, are the best-in-class: from automated thermoforming to vacuum suction to achieve the perfect contours. Robotic reinforcement of the tub (with waste PMMA granules) for complete uniformity and efficiency. Precision drilling of the drain hole and holes for air and water jets.

The finishing touch is the polishing of the tubs and whirlpools to a deep, gleaming shine that makes it look worthy of being a world-class product from India's trusted bath fittings brand!

SPA - Structure	10 years
Spa Jets	5 years
Electrical parts in all products	2 years

Conceived back in 1960, the Jaquar Group has been built on the platform of the highest quality standards, aesthetics and the intent of providing world-class products. Today, the Jaquar Group caters to luxury, premium and value bathroom segments with Artize, Jaquar & Essco brands, respectively, for residential and commercial sectors across the globe. The group's lighting division, Jaquar Lighting too, has been setting new parameters of excellence while witnessing unprecedented success.

Artize

Inspired by this magical touch of art, the luxury lifestyle/wellness-brand Artize aims to create inspiring artful spaces in an area one rarely associates with the word 'ART' - the bathroom. Artize is a classic blend of unique designs, minimalistic shapes, and meticulous finishes that sets new benchmarks in redefining the landscape of luxury bathrooms. Born From Art, as the name suggests, Artize is set to redefine the 'form' that one is used to in a typical bathroom space.

Jaquar's vision is to be the brand that inspires people worldwide to rediscover the joys of water and light. A global Superbrand, its Complete Bathroom Solutions include a wide range of products that have beautifully designed aesthetics to make the bathroom a relaxing, refreshing, joyful space, as well as the highest build quality to ensure that they can withstand tough usage conditions, backed by a 10-year warranty and dependable customer care. In lighting too, the brand offers Complete LED Lighting Solutions - for residential, commercial and outdoor use. Designed to be compatible with, and complement, every interior and exterior design aesthetic or décor, every lighting product reflects Jaquar's impeccable record of superlative quality and painstaking attention to detail.

The oldest brand from India's most trusted corporate in the bathware segment, Essco has been in existence for 5 decades. A value brand that added a whole new chapter in the country's bath fittings industry by ushering in the era of the organised bath market, Essco has been supporting affordable and sustainable housing in India. Its range of quality products are not only priced reasonably, but also offer a 10-year warranty and excellent customer service.

Essco has been standing tall in the Indian bath fittings industry since 1960 by delivering great performance at a low cost. And enabling Indian consumers to live a better quality of life through good sanitation and affordable housing.
