

GREY IS THE NEW BLACK

INTRODUCING GREY MATT SANITARYWARE

What comes after white, and black? Grey, of course! For far too long, sanitaryware has been forced to be one or the other.

Sanitaryware had also been forced to just be glossy. Jaquar let you go matt with our Black Matt range and now presents the most happening colour in interior décor:

Grey Matt!

Matt Matters

In a world where the bath space is our personal refuge from the noise and chaos of the world outside, Jaquar's grey matt and black matt basins and WCs provide the perfect bases to build an atmosphere of respite and restfulness in the bathroom. The matt finish eliminates reflections and visual stimuli and maintains a refined and powerful presence without seeking attention. Just what a modern, minimalistic aesthetic of quiet luxury calls for.

The grace of Grey

In interior design as well as fashion, grey has been the definitive winner of the past decade. Is it because it provides the perfect neutral backdrop for accent colours (or coloured fixtures in bath spaces)? Is it because it's quiet and doesn't call attention to itself – perfect for when you just need to be by yourself? Or is it because we know life itself is not black or white, but grey?

Designed for today. Built for tomorrow.

Apart from having the latest aesthetics, Jaquar's research and development has also ensured that these products are easy to install and perform at peak levels for a long time to come. Their features include an anti-germ glaze on the rimless bowl's ceramic as well as the seat, a soft-close seat cover tested for over 200,000 closures blind installation capability, and a 10-year warranty on the product.
