The Group

 ***Global Headquarters***
Net Zero Energy Building spread over 48,000 sq. mtrs.

A leading global super brand known for its excellence in innovation and technology. The highest build standards combine with the most beautifully designed aesthetics to provide world-class products for tough conditions. With a superb blend of ergonomic shapes, contemporary styles and meticulous finish, Jaquar continues to enthrall millions of hearts across the world with its wide range of concepts and products.

It pays a tribute to the fine traditions of exquisite craftsmanship and precision where design, technology and talent combine to deliver a masterpiece. Artize products are crafted for luxurious bath spaces. Perfect harmony is the very essence of Artize—together as coordinates or even as individual pieces. Artize's exquisite craftsmanship is so stunning that it can inspire the design principles of not just your bath spaces but of your entire living spaces.

World-class whirlpools. Proudly made by Jaquar

Jaquar whirlpools are made in Jaquar's own, state-of-the-art manufacturing facilities. Using the finest raw materials and components, including imported PMMA sheets and high quality fittings, wiring and pumps, Jaquar creates products that will serve you for years and years.

The processes used too, are the best-in-class: from automated thermoforming to vacuum suction to achieve the perfect contours. Robotic reinforcement of the tub (with waste PMMA granules) for complete uniformity and efficiency. Precision drilling of the drain hole and holes for air and water jets.

The finishing touch is the polishing of the tubs and whirlpools to a deep, gleaming shine that makes it look worthy of being a world-class product.

Whirlpools

Jaquar proudly presents its own range of whirlpools. Created by specialist designers from Europe and made in Jaquar's state-of-the-art manufacturing facilities.

Jaquar whirlpools bring wellness into your home with great style and panache. Their jets project water in a flowing, circular motion, which offers a wide array of health benefits, including relaxation, improved blood circulation and sore muscle and joint relief. Whatever you desire, whether hot or cold water massages, long relaxing soaks or even chromotherapy, a Jaquar whirlpool gives you all these and more. Easy to use manual or remote functions flawlessly switch water modes for your benefit.

Advantages:

Hydromassage

A gentle jet stream massage bath that stimulates from the surface of the skin onwards. The deep tissue massage stimulates blood vessels and nerve endings, and relaxes your body's entire muscular system.

Air Massage

An infinite number of air bubbles provide a caressing sensation on the skin and allow the water's soothing warmth to penetrate deeper into the body's tissue. This sensational feeling, akin to weightlessness, is accompanied by a deep experience of healing warmth.

Chromotherapy

The use of various coloured lights offers additional therapeutic benefits when used in conjunction with the whirlpool's massage. These include:

Green: has harmonious effects on the digestive system.

Yellow: radiates sun-like warmth on the body.

Blue: is calming and soothing and lets you float away in to your dreams.

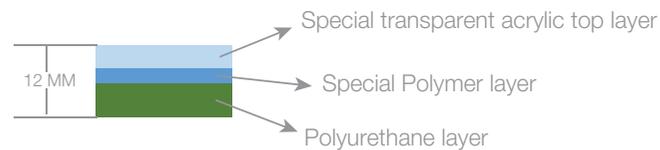

Red: infuses energy and vitality, giving lost strength to the entire system.

Features

The unbeatable product features are:

- Brilliant surface of sanitary acrylic
- Warm surface
- Antibac® hygienic surface
- Increased chemical resistance
- High break strength
- Long life in use
- Excellent design possibilities
- Easyglide® layer
- Low specific weight
- Recyclable
- Repairable

BATHTUB LAYERS

Special transparent acrylic top layer has a high chemical resistance to: cleaning agents, perfumed foams, household detergents, body care products

Special transparent acrylic top layer prevents surface defects, crazing/cracking, decoloration and color fading

Special polymer for better mechanical resistance to impact and temperature

Polyurethane layer is recyclable and uses ecological material with high insulation that retains the temperature for a longer period than FRP

The PMMA Advantage

The carrier layer consists of an easily thermo-formable and high impact ABS and the top layer is in impact-modified acrylic (PMMA). In order to maintain the colour stability of the finished product after extended external use, the PMMA layer is homogeneously matched to the colour of the carrier layer. Due to the reinforcement with 20mm of plywood at the bottom, the tub doesn't develop cracks at the bottom when filled with hot water.

Air Suction Valve

There is an additional pipeline in the water circuit which is connected to all the water jets. This pipeline is connected to a pump with a heating coil which sucks atmospheric air, heats it and distributes it to each and every water jet to boost the jet pressure.

Features

Safety Vacuum Breaker

This is one of the important safety features installed in Jaquar whirlpools. In case of blockage in the suction point the motor switches off automatically.

No Bacteria Formation. Fresh Water Everytime

The water pipes connect via V-shaped housings, creating a bow which ensures the complete drainage of water. Unpleasant odours and, even worse, bacteria are thus avoided.

Environment Friendly

The pipes are made from special Food Grade PVC. These pipes have an anti bacterial coating on the inner side so that even if some drops of water stay behind after the tub is drained, there won't be any bacteria formation in the water droplets.

3 Tier Test

Each and every Jaquar whirlpool goes through a functional test with hot water after which it is tested on a European test machine for earthing resistance, insulation test and a high voltage test.

Easy To Use

The digital/manual control activates all the hydromassage functions, to regulate Airpool intensity. All electronic parts can be installed and removed on site, thus making after-sales, what it should ideally be - a service !

Water jets

The effectiveness of the hydromassage is enhanced by the exclusive performance of the Glass patented "JET CLEAN" nozzles. They have orientable nozzles with partial closing system. The water flow can be adjusted in intensity and direction to suit personal needs, in order to gently massage delicate areas with capillary fragility and give a more energetic massage to areas that need more vascular stimulation

Airpool jet

The airpool jets are made of plastic and provide a gentle and delicate massage on your spine, which increases the sensation of warmth in the body and has beneficial effects on the back.

When immersed in water, the body builds up a protective layer which insulates the body. The air bubbles open the insulation layer releasing oxygen, and stimulating blood circulation. It optimises the transfer of warmth and the feeling of wellbeing.

Spas

Spas are a wonderful way to relax and restore equilibrium. Jaquar's spa models are technological marvels whose 'well being circuits' comprise of various seats and a common footrest in the centre. Each seat is strategically fitted with different types of massage jets in various positions, oriented to massage different parts of the body. By moving from one seat to the other, one can enjoy a complete and satisfying massage that stimulates and relaxes all parts of the body. Cushioned headrests, ergonomic seats and a host of high performance features make this the ultimate home spa experience.

Advantages:

More economy

An array of energy efficient technologies make our spas more economical to run and easier to enjoy more often without worrying about power consumption.

Cleaner, healthier water

Unlike swimming pools, Jaquar spas don't use harsh chemicals that can be harmful for the skin. Our spas feature advanced water treatment technologies to ensure the cleanest, clearest water.

A superior experience

Jaquar spas have superior hydrotherapy performance and features that are usually reserved for the world's most expensive spas.

Guaranteed to last longer

Every Jaquar spa is hand crafted using industry-leading techniques and materials, which is why we can guarantee the spa shell for 10 years.

Easier to maintain

Jaquar spas give you the ultimate in easy care spa ownership without needing to spend much time on maintenance, or have a degree in chemistry to enjoy crystal clear water.

Technologies that save energy and money

To let you enjoy using them without worrying about the power bill, Jaquar spas come with a whole range of energy efficient technologies.

Cabinet Insulation

Jaquar spas have insulation in the perimeter of their cabinets to maintain the warmth of the water, and the spa's plumbing and equipment, further reducing your energy costs.

The insulation system has two features that make it superior to the traditional 'foam on shell' spa insulation system. By insulating the cabinet instead of the shell, Jaquar spas not only retain heat from the pumps and equipment, but also insulate the plumbing that otherwise would lose heat to the environment. This results in less overall heat loss and lower running costs. What's more, the insulation reduces the noise of the spa pumps so you will also enjoy a quieter, more tranquil spa experience.

Intelligent Thermal Regulation

Allows the spa to tune itself to its environment, day-to-day and season-to-season, thus reducing your heating costs by up to 20%.

Thermal performance and heat retention is what distinguishes one spa from another. Jaquar's control system adapts and tunes itself to the thermal properties of your spa pool, in its environment, day to day and season to season, to reduce 'on demand' heating.

The control system of a Jaquar spa actually 'learns' how your spa is used. By reducing the temperature drop required before the heater switches on, it provides more consistent spa water temperatures and lowers daily operating costs.

Smart meter ready

Even if your electricity provider does not currently offer smart meters, they soon will. A smart meter allows your electricity supplier to charge higher prices in periods of high demand, but rewards consumers who shift their consumption to low demand periods such as overnight. Using Power Save software, Jaquar spas can be designed to do the filtering and heating when power costs are at their lowest.

Best of all, the control is in your hands. You can tailor the operation of your Jaquar spa to take advantage of smart meter technology and reduce your running costs.

Features

Purezone Micro Filtration

The top priority of an effective water treatment system is to remove waterborne contaminants. Conventional filters only trap particles up to 50 microns in size.

A luxurious spa experience

Jaquar Spas have superior hydrotherapy performance and features that are seen in the world's most expensive spas

Hydroflow jets

A Jaquar spa's hydroflow jets are designed to maximise jet pressure and provide a world-class hydrotherapy experience. We choose from a multitude of directional, spinning and fixed jets to create a different massage action in each seat. Some seats give a broad massage using wide sweep rotational jets, whilst others provide a pinpoint, Shiatsu-style massage.

Ergonomic design

Jaquar spas are designed to maximise your comfort. Jets are positioned to massage tired muscles. The controls are within easy reach. And relaxation comes automatically.

Easy to operate

Jaquar spa control systems are intuitive and easy to operate and offer maximum flexibility and control. The top side panel controls most functions with one touch of a button. More advanced controls can be accessed through the simple English menu functions.

Features

Two lounge seats

To avoid arguments over who gets the spa's lounge (usually the most comfortable and most coveted seat in the spa), most Jaquar spas have two luxurious hydrotherapy loungers.

Individual pressure control

To ensure complete satisfaction for all, each seat in your Jaquar spa can be controlled with the seat's pressure control dial. In addition, most jets can be individually controlled, directing pressure to where you need it most.

Dynamic lighting options

Flood lighting, jet lights, backlit drink holders and water features, waterline illumination and access lighting can all be added to your Jaquar spa to enhance your experience. Lighting programs can be controlled using the spa's topside controller.

Neck therapy collar

Optional on most Jaquar models, the neck therapy collar incorporates jets specially designed to eliminate stress and tension carried in the neck and shoulder area. Opt for the neck therapy collar to soothe away the stresses of your day.

Colour Solutions

Our contemporary colour palette is hand selected from the latest Australasian home design fashions. Created to please those with the most discerning tastes looking for intelligent colour solutions.

Saunas

A Sauna is a bathhouse or room, usually made of wood, which uses dry heat to induce perspiration, with steam being produced by pouring water on heated stones. Perspiration or sweating is one of the main ways our bodies get rid of the traces of hundreds of toxins that accumulate inside us from pesticides, drugs and manmade chemicals. 15 minutes in a Jaquar sauna can help us sweat as much as we might otherwise do over an entire day or more. And the benefits of this are many – ranging from relieving common cold symptoms to aiding in medical conditions like chronic fatigue, rheumatoid arthritis, musculoskeletal pain, and even cardiovascular and skin conditions. Sauna sessions can also improve performance in endurance sport and help recuperation after childbirth.

Advantages:

Detoxification

Saunas stimulate the body to release fat-soluble toxins, heavy metals, and other toxic chemicals in sweat via pores more effectively than any other form of heat therapy or exercise. Reports have shown that it can relieve the symptoms of drug-induced lupus. The list of chemicals claimed to be removed from the body includes: mercury, lead, copper, cadmium, manganese, sodium, chloride, arsenic, nickel, benzenes, street drugs, prescription drugs, anaesthetics, cholesterol, urea, nicotine, sulfuric acid.

Immune System Enhancement. A typical sauna session will cause a brief 1 to 3 degree F increase in body temperature. Fever is the body's defence against bacteria, microbes and consequent infection. The production of white blood cells by the bone marrow and killer T cells by the thymus results in boosting immunity, overall.

Stress

Continuous strain on the autonomic nervous system leads to a high level of stress, one of the elusive causes of many chronic diseases.

Weight Control

A 15 minute sauna session is as effective for weight loss as rowing or jogging for 30 minutes. The improved blood flow to organs and endocrine glands speeds up the metabolic process, increasing caloric burn. Because fat becomes water soluble at 110 degrees F, subcutaneous fat can be released along with the sweat and toxins.

Cardiovascular Conditioning

The human body will naturally try and cool itself as temperature increases. It does this by diverting blood from the internal organs to the extremities and skin by vasodilation. This increases heart rate, cardiac output and metabolic rate.

Cellulite

Cellulite is a gel-like substance made up of fat, water and wastes, which are trapped in pockets below the skin. Profuse sweating is purported to clear this form of unwanted debris. A sauna is effective in cellulite removal when used in conjunction with a program that includes diet and massage.

Pain Relief and Control

Saunas help to eliminate or reduce the pain of arthritis, muscle spasms, shoulder pain, neck and back pain, and sprains of any area, and reduce scar tissue and adhesions. Will rapidly increase the healing process in any non-acute injury.

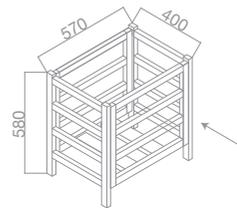

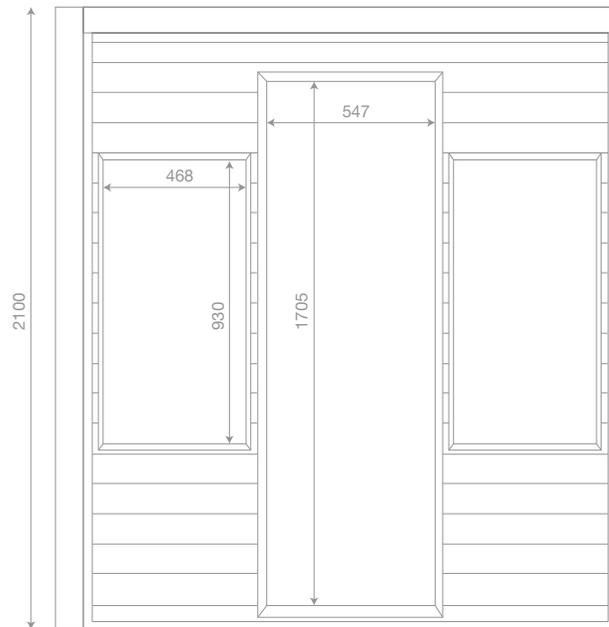

Skin Cleaning and Rejuvenation

Saunas open clogged pores allowing for removal of dirt, oil, and makeup. In addition, there are improvements in skin problems such as acne, rashes, burns, eczema and psoriasis. Scars, even keloids, may be gradually softened.

Serene 1750 x 1200 x 2100

(3-4 Persons)

JSA-NAW-S004175

Specifications:

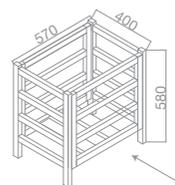

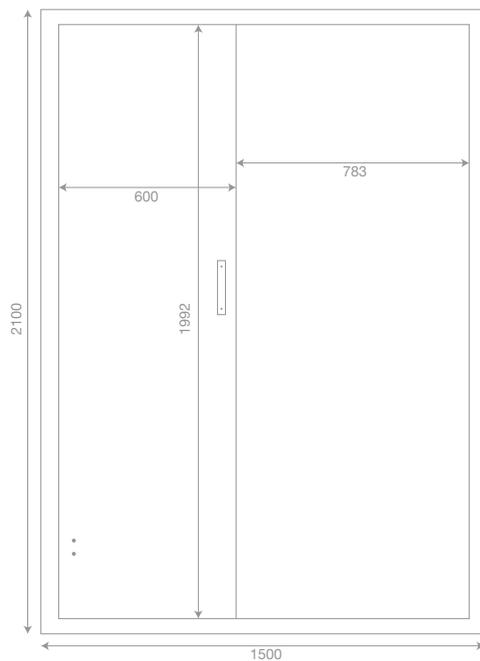

Size: 1750 x 1200 x 2100 mm

- Wood Finish-Hemlock
- Stove heater 4.5 KW
- Tempered glass 8 MM
- On heater control panel
- White light with cover
- Chromotherapy Light
- Radio
- USB connector
- MP3 player connector
- Lumbar support backrest.
- Thermometer and hygrometer.

Kaya 1500 x 1100 x 2100

(1-2 Persons)

JSA-NAW-MD3150

Specifications:

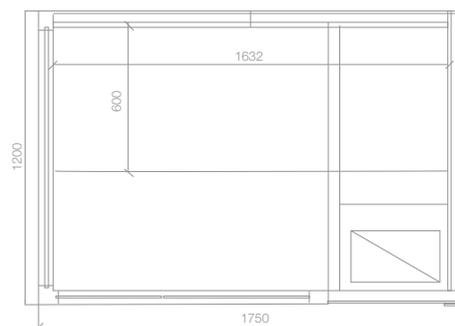

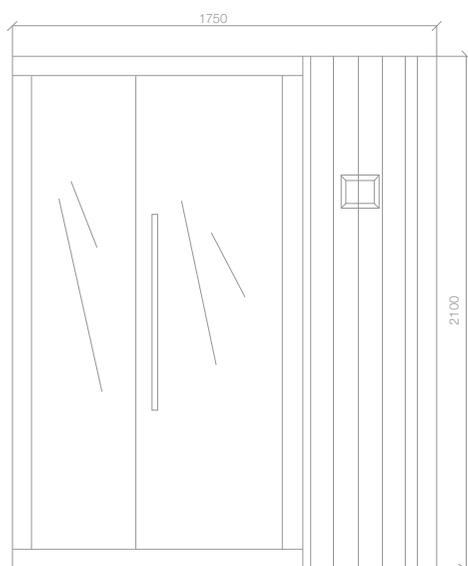

Size: 1500 x 1100 x 2100 mm

- Wood Finish-Hemlock
- Stove heater 4.5 KW
- Tempered glass 8 MM
- On heater control panel
- White light with cover
- Chromotherapy Light
- Radio
- USB connector
- MP3 player connector
- Lumbar support backrest.
- Thermometer and hygrometer.

Kubix 1750 x 1200 x 2100

New Arrivals

JSA-NAW-T16120

Specifications:

Size: 1750 x 1200 x 2100 mm

- Wood- Hemlock,
- interior LED white light,
- interior LED color light,
- Stove heater,
- 2pcs small backrest
- Power- 4500 W

Steam Solutions

For those seeking wellness in the comfort of their homes, a Jaquar steam cabin is a great way to enjoy the benefits of humidifying water vapour from a high-quality steam generator.

Advantages:

Clearer skin

Steam showers have the ability to unclog pores and remove deeply trapped congestion from under the surface of the skin

Infection treatment

A major benefit of regular steam showers is relief from respiratory infections

Increased circulation

Steam showers are an excellent way to naturally boost circulation throughout the body. Increased circulation brings more oxygen to cells and decreases the risk of hypertension, hardened arteries and muscle function

Stress relief

One of the most powerful benefits of steam showers is their ability to reduce both physical and mental stress

Metabolism and weight loss

Hot steam increases blood flow by stimulating the lymphatic system which, in turn, helps to speed up the metabolism

Features

Absolute Quality of Materials

Jaquar hydromassage showers are made of co-extruded acrylic, which does not discolour and has a long life. This hygienic material, together with the smooth surfaces and tempered glass shower enclosures, makes cleaning an easy part of the product experience.

Advantages:

Stability and Mechanical Resistance

Jaquar shower boxes are characterised by stability and solidity thanks to the zinc-plated steel frame that ensures maximum rigidity of all the components. Stability and mechanical resistance are also the attributes of the shower tray reinforcement.

Easy Installation

The installation of the shower boxes is as easy as it can be: the metal frame carries the elements and is simply put together.

Safety

The range of hydromassage showers meets all the relevant safety standards which are currently in effect. Extra safety that goes beyond any norms is part of the product values that any demanding customer can expect from a leading product. For example, the shower tray surface is ribbed, providing for an excellent anti-slip feature. The steam generator will turn itself off automatically after the preset timeout, avoiding wasting energy and the risk of overdoing a steam bath.

Digital Control

It allows you to manage all manual control functions including sequential back rain jets, back jets, waterfall cervical massage, duration of vertical hydromassage, steam bath function, light, radio and white LED lighting

Control Units

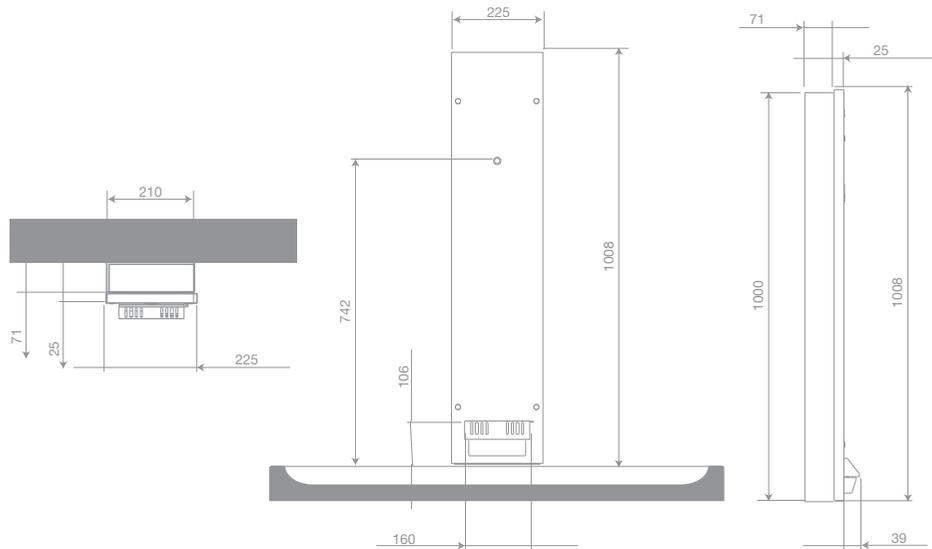

All the hydromassage shower functions can be simply adjusted through easy-to-use control units.

Manual Control

It allows you to manage the shower head and vertical jets, as well as activate the steam-bath function.

Noor Steam Module

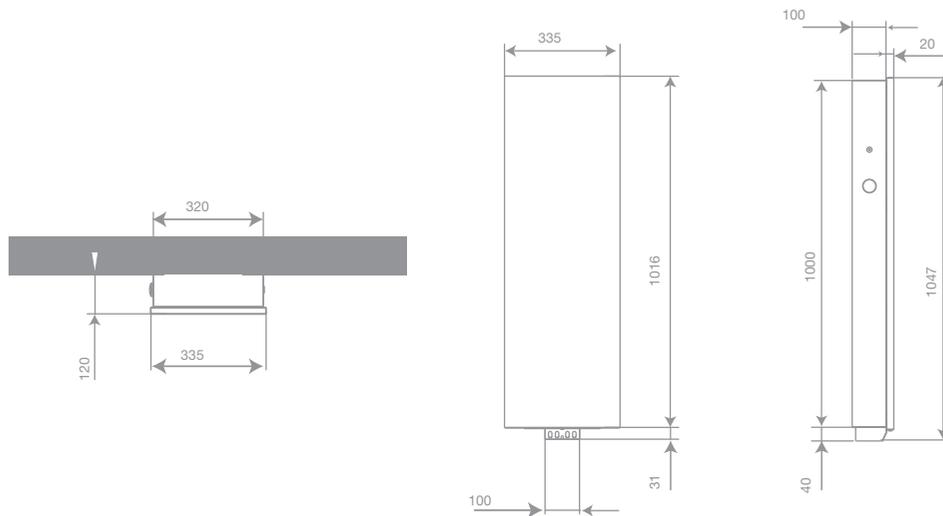

NSC-CHR-MU000BW000X

Specifications:

- Material - stainless steel
- Finish - brilliant
- Installation - wall mounted & built in position as desired in the shower area

Features :

- Steam function - 2.7 K.W. generator with on/off touch
- Aroma dispenser with extractable drawer
- Max Temperature of 45 Degree C
- IPX4 Rating
- Self Flushing enabling no calcium deposits - Auto clean
- Safety cutoff

NSC-CHR-TZ000BW400X

Specifications:

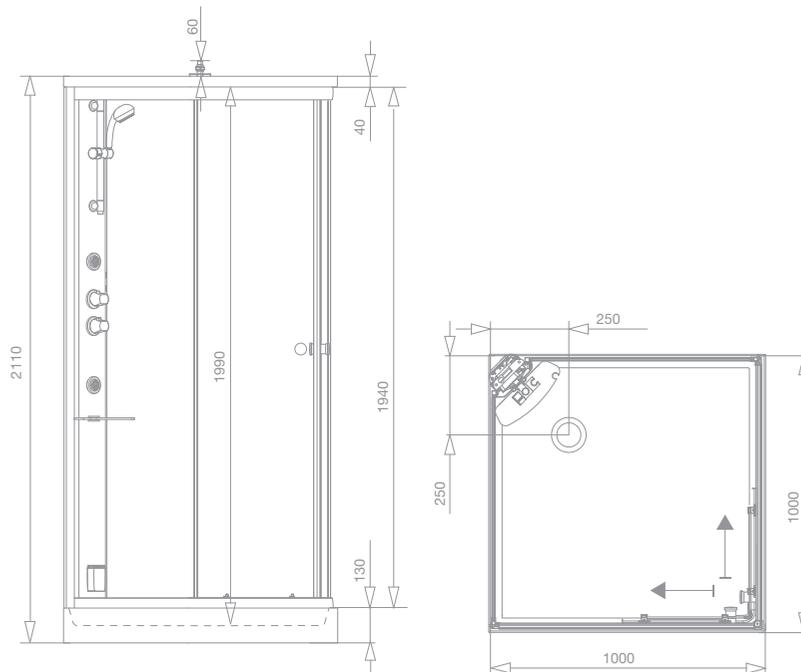

- Material - stainless steel
- Finish - brilliant
- Installation - wall mounted & built in position as desired in the shower area

Features :

- Steam function - 6 K.W. generator with on/off touch
- Aroma dispenser with extractable drawer
- Max Temperature of 45 Degree C
- IPX4 Rating
- Self Flushing enabling no calcium deposits - Auto clean
- Safety cutoff

Archimede 1000 x 1000 x 2100 (Square)

GSB-WHT-TU000B1H5TX

Specifications:

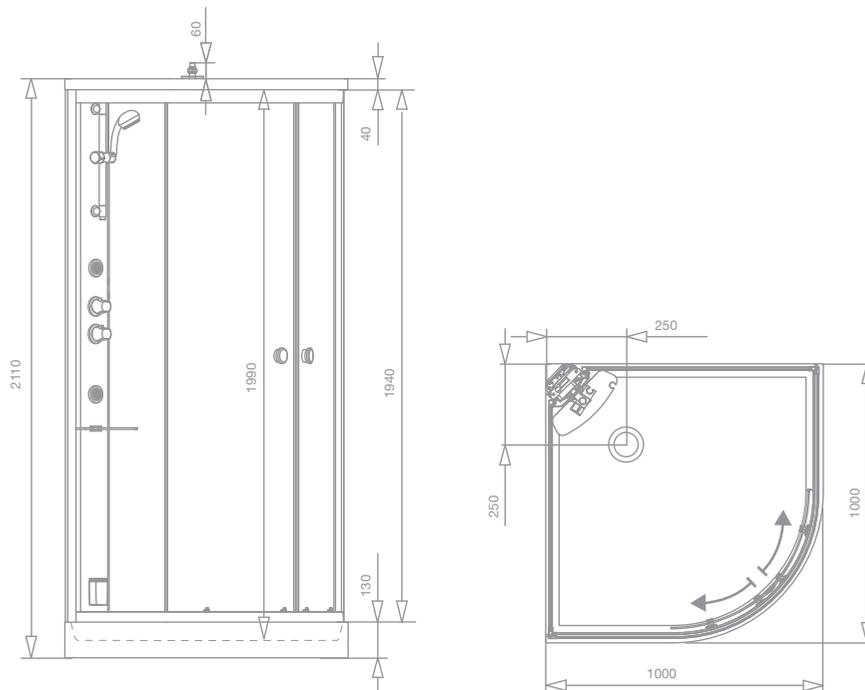

Size: 1000 x 1000 x 2100 mm

Features :

- Square Version - Shower, steam
- Self standing box (Corner /Wall)
- Shower tray and roof with Integrated Showerhead 300 MM
- White painted aluminum shower column with 2 Integrated round jets
- Shower rail
- Thermostatic mixer with diverter
- Hand shower and shelf
- Chromotherapy
- Speakers
- Sliding door shower enclosure
- 5 mm tempered glass.
- Steam Function- 2.7 KW with Aroma Dispenser

Archimede 1000 x 1000 x 2100 (Corner)

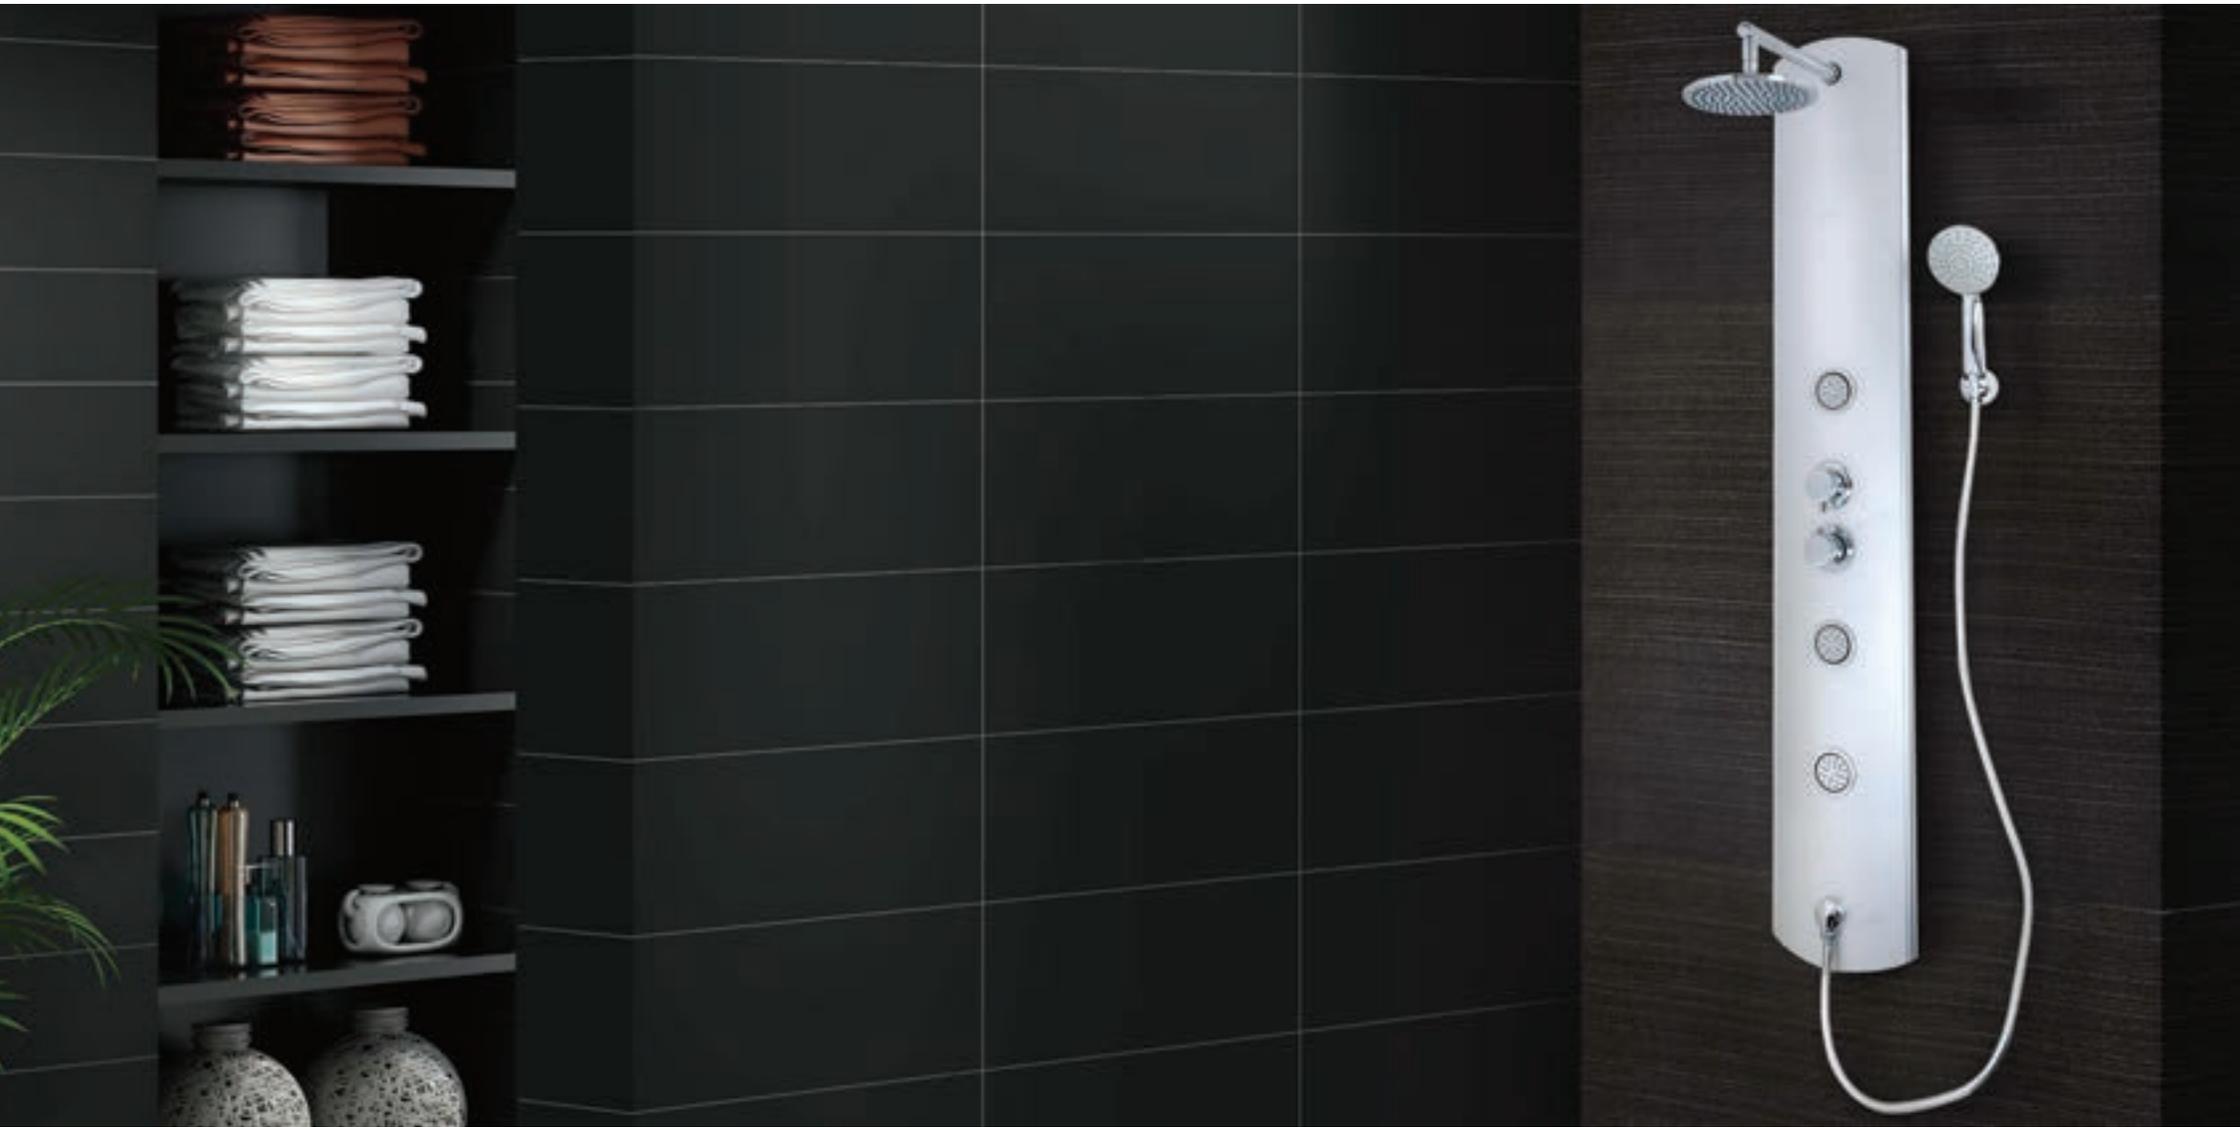

GSB-WHT-UM000B1H5TX

Specifications:

Size: 1000 x 1000 x 2100 mm

Features :

- Corner Version - Shower, steam
- Self standing box (Corner /Wall)
- Shower tray and roof with Integrated Showerhead 300 MM
- White painted aluminum shower column with 2 Integrated round jets
- Shower rail
- Thermostatic mixer with diverter
- Hand shower and shelf
- Chromotherapy
- Speakers
- Sliding door shower enclosure
- 5 mm tempered glass.
- Steam Function- 2.7 KW with Aroma Dispenser

Shower Panels

Jaquar's shower panels make showering much more convenient, since they are almost like shower stalls, and fit even in a small bathroom. Jaquar shower panels are an easy way to increase the functionality of your existing shower area, as they can fit neatly on to the wall via their wall bars.

Advantages:

Maximisation of bathroom space

Since they are designed to be mounted on the wall, not much floor space is required to accommodate the unit.

Versatility

Instead of using a single shower head, many shower panels are available with multiple water outputs.

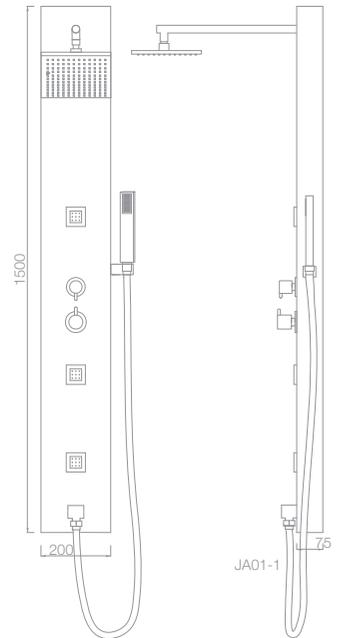

Economical

Jaquar panels are available in a wide range of prices, styles, colours, sizes and designs to suit different needs.

Blak 1500 (H) x 200 (W)

JPL-BLK-JA011

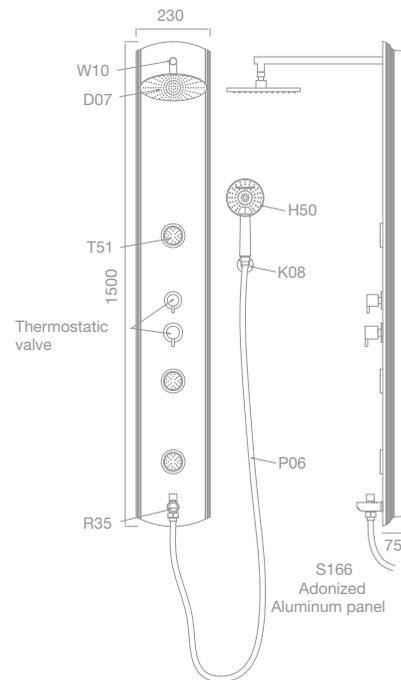

Specifications:

Size 1500 x 200 mm

- Stainless steel structure
- 3 adjustable vertical jets(Square)
- Integrated shower head (8" Square)
- Thermostatic mixer with diverter
- Hand shower with
- flexible hose
- Button Spout
- Connecting Hose
- Minimum Water Pressure 2 bar

Curve 1500(H) x 230(W)

JPL-SLM-JA021

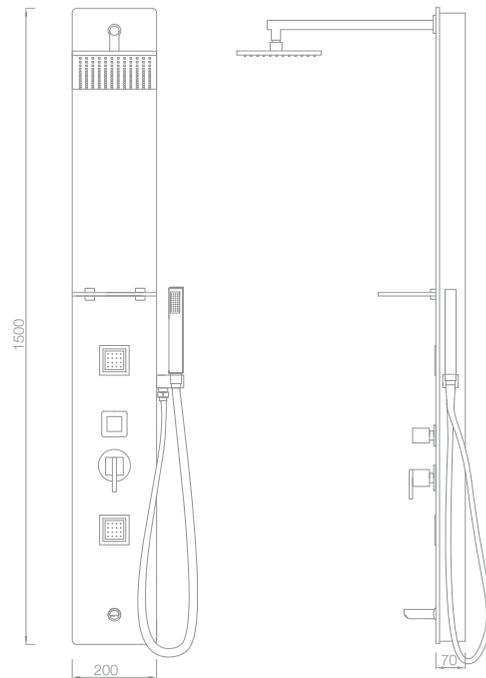

Specifications:

Size 1500 x 230 mm

- Anodized Aluminium structure
- 3 adjustable vertical jets(Round)
- Integrated shower head (8" Round)
- Thermostatic mixer with diverter
- Hand shower with flexible hose
- Button Spout Connecting Hose
- Minimum Water Pressure 2 bar

Infinity Black 1500(H) x 200(W)

JPL-BLK-G0842JAX

Specifications:

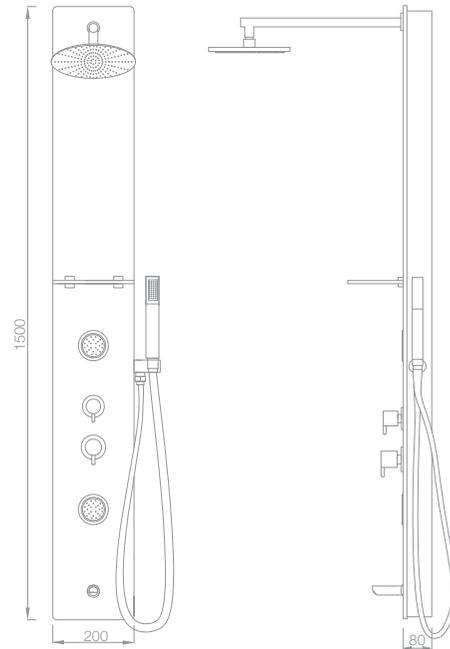

Size 1500 x 200 mm

Infinity Shower Panel (Black mirror finish)

- 2 Jets
- Head Shower
- Hand Shower
- Spout
- Shampoo Shelf
- Minimum Water Pressure 2 bar

JPL-SSF-ST8896

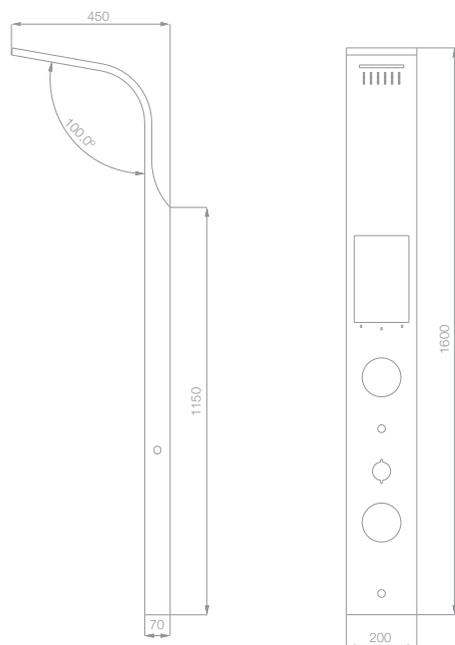

Chrome Plated With Stainless Steel Finish

Specifications

Size :1600 x 230 mm

- Body material chrome plated stainless steel
- Movable ABS top shower
- Brass waterfall
- Movable ABS body massage jets
- Chrome plated ABS hand shower
- Brass spout
- Brass faucet body with thermostat mixer
- Multifunction water diverter for top shower, waterfall, hand shower, body jets, spout
- 40cm stainless steel braided hose
- 1.5cm stainless steel double locked flexible hoses
- Minimum Water Pressure 2 bar

JPL-SSF-ST88158B

Anti Finger Print With Stainless Steel Finish

Specifications

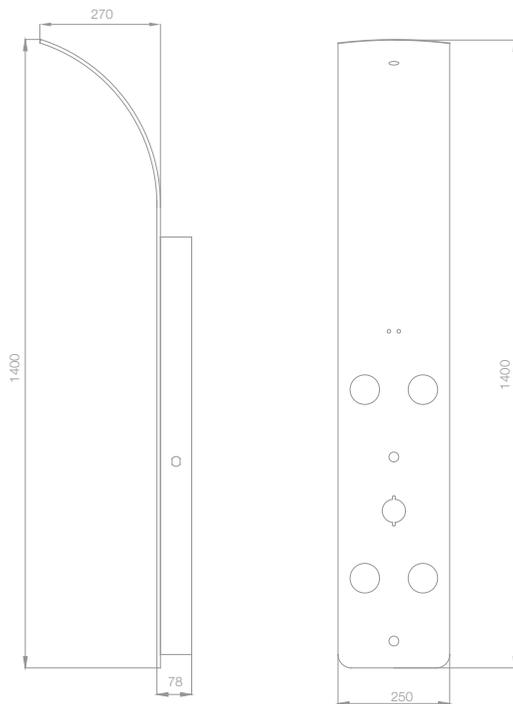

Size :1600 x 200 mm

- Body material anti fingerprint stainless steel
- Inbuilt ABS Top shower with 60 nozzles + waterfall
- Movable ABS body massage jets
- Chrome plated ABS hand shower
- Brass spout
- Embedded shelf
- Brass faucet body with thermostat mixer
- Multifunction water diverter for top shower, waterfall, hand shower, body jets, spout
- 40cm stainless steel braided hose
- 1.5cm stainless steel double locked flexible hoses
- Minimum Water Pressure 2 bar

Glassy - White 1400(H) x 250(W)

New Arrivals

JPL-WHT-ST86113

White Tempered Glass With Special Surface

Specifications

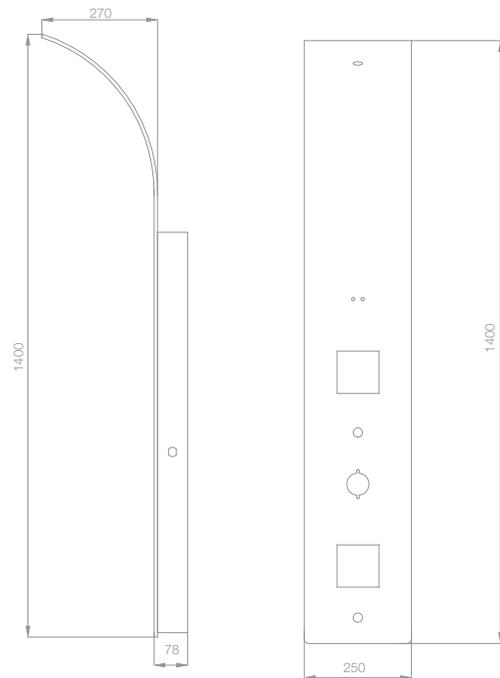

Size : 1400 x 250 mm

- Body material: Tempered glass with glass special surface + PVC back
- Moveable ABS top shower
- Moveable ABS body massage jets
- Chrome plated abs hand shower
- Brass spout
- Glass platform
- Brass faucet body with thermostatic mixer
- Multifunction water diverter for top shower, hand shower, body jets, spout
- 40 cm Stainless steel braided hose
- 1.5m stainless steel double locked flexible hoses
- Minimum Water Pressure 2 bar

Touch Technology

ShoweTronic iV6

Artize ShowerTronic iV6 is a touch based, intelligent water mixer system, which automatically maintains the water temperature and flow rate during showering. It comes with a host of features designed to deliver the ultimate showering experience.

Features

Automatic Startup:

The system can automatically set itself up after installation by determining and activating the outlets connected and their maximum flow rates

Warm Up Mode:

This feature preheats the shower for you by flushing out cold water until the desired preset temperature is reached

No Risk Of Scalding:

The water temperature is kept constant with no surprising hot water shocks even if somebody flushes the toilet or opens a faucet elsewhere in the house

Rock-steady Water Flow:

ShowerTronic iV6 is a flow-static mixer as well. Its 6 intelligent valves, sensors and software maintain the water's flow perfectly steady at the flow rate you choose

Pause Mode:

Perfect for when you're soaping or shampooing, it maintains and automatically finds the exact temperature and flow rate of the shower when you restart it

Automatic Internal Cleanup:

Ensures perfect hygiene in the system with water-shock flushing from all outlets to remove lime and impurities from the pipes and outlets

Settings Memory:

Store your preferred settings in its memory, including the water outlet of your choice, the flow rate, and of course, the temperature

Thermal Disinfection:

Recommended to be done annually to ensure hygiene, this feature flushes hot water through all outlets for 5 minutes - at the maximum temperature available in the water heater

Auto-calibration:

Stabilises the water against any external change in pressure, water flow or temperature

Alarm Display:

When the system spots problems that persist for over 5 seconds, you won't be left guessing

STC-CHR-70000

Showertronic iV6 System includes:

- Thermostatic Mixer -CPU iV6/6 OUT • Digital Interface – Touchpad • Power Supply System • Touchpad Cable - 3 metres • Braided Hoses - 06
- Y-Strainer 20mm - 02 • Control Cock 20mm - 02 • N.R.V. Set - 04 • Filter - 08 • SS Installation Box - 01

CPU iV6 / 6 OUTS

Smart electronic device with digital reading and accurate, stable, thermostatic regulation of water temperature and flow rate at the consumption terminals. Designed to be integrated in showers, columns, cabins or bath areas.

Power Supply System

System composed of 12 V DC power supply, a battery backup in case of lack of network voltage and a voltage peaks protection. Batteries are charged with the usual power supply, ensuring that they are always correctly loaded.

Touchpad

Electronic touch interface based on piezo technology, the touchpad consists of different laminated layers, making it extremely robust, resistant and long-lasting with a high level of user-friendliness. The interface controls the shower flow rate and temperature, enables the water outputs desired by the user and executes the CPU's smart programs such as the start-up program, clean-up program, thermal disinfection program or warm up program.

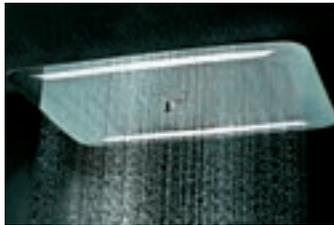

RAINJOY. THE SHOWER-SPA
WORKS BEST WITH
SHOWERTRONIC iV6

Rainjoy

Lose yourself in the steady drumming of rain. The hypnotic rhythm of falling waterdrops. The Rainjoy shower spa blends material science, hydro-flow design, and the best aqua-pressure therapy to create a 360° water massage that envelopes you in pleasure. So that when you step into the shower, you discover a spa.

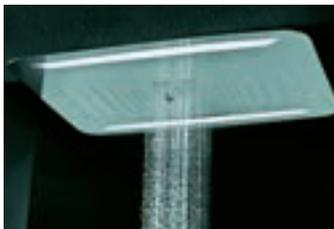

Modes

Rain

Welcome the emptying of the clouds with arms wide open

The Rain mode lets you enjoy an extra-large overhead shower zone for a complete body bath. With pearls of water streaming from every jet on the large shower head, the Rain mode's generous coverage is as rejuvenating as the monsoon's first downpour.

Intense

Feel the drums of the rain gods play a thrilling tune on your skin.

Concentrating a powerful flow of heavy drops into a small area from the central jets, the Intense mode is spread perfectly to fall on your head and shoulders, and relax and recharge you in minutes.

Mist

Lose yourself in the kiss of a million droplets a minute.

Four nozzles recreate the joy of being in a cloud as the Mist mode's floating blanket of feather-touch droplets gently covers you with freshness. Mist spray is created by forcing water through tiny holes, and this mode is great for hot summer days or after a long, hard work-out.

Twin Waterfall

Surrender to the power of the leaping river.

An unrelenting cascade (or two) of water that arches purposefully down your back, the Waterfall mode's therapeutic effect feels totally natural and timeless, and is perfect for kneading new life into tired backs and shoulders.

Let healing light flood your senses.

Carefully selected hues of light add a choice of calming waves and invigorating energy to help every shower work wonders with not just your mind and mood, but heal your body as well. Whether you need to relax or be energised, set an appropriate colour for your shower to inspire the body and the mood with a choice of chromatic lights.

Light & Easy

Each Rainjoy shower comes with the convenience of a cordless, waterproof remote control which lets you customise your chromotherapy experience. With a simple press of a button, you can choose a relaxing colour to shower in. Or switch to an energising, pulsating, multi-colour experience. The colours also change at a speed that you control

Remote

Luxury is chromotherapy that you control

Water Column and Body Shower

OSA-CHR-70001

"Rainjoy 370X250mm AISI 304 stainless steel in chrome finish with installation kit for false ceiling

- 2-functions
 - Rain
 - 2 X Mist "

OSA-CHR-70003

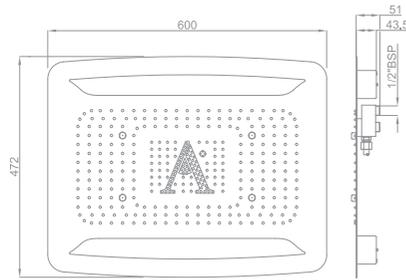

"Rainjoy 480X330mm AISI 304 stainless steel in chrome finish with installation kit for false ceiling

- 2-functions
 - Rain
 - 4 X Mist "

OSA-CHR-70003 iV6

"RAINJOY 480X330mm AISI 304 stainless steel in chrome finish with installation kit for false ceiling

- 2-functions
 - Rain
 - 4 X Mist (Compatible with iV6)"

OSA-CHR-70005

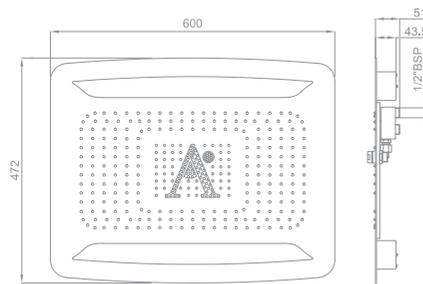

"Rainjoy 600X472mm AISI 304 stainless steel in chrome finish with RGB LED lights remote control & with installation kit for false ceiling

- Chromo therapy (RGB): LED x 0.23W with 12V Power Supply (SMPS) Including Controller, connecting to AC 100-240V, 50-60Hz
- 3-functions
 - Rain • Intense • 4 X Mist "

OSA-CHR-70005SH iV6

"RaiNJOY 600X472mm AISI 304 stainless steel in chrome finish with RGB LED lights remote control & with installation kit for false ceiling

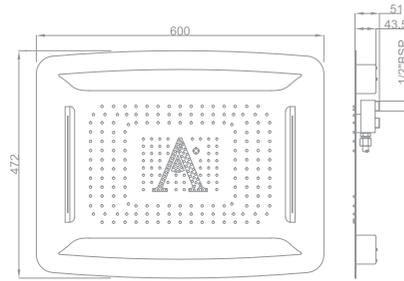

- Chromo therapy (RGB): LED x 0.23W with 12V Power Supply (SMPS) Including Controller, connecting to AC 100-240V, 50-60Hz
- 3-functions
 - Rain • Intense • 4 X Mist (Compatible with iV6)"

OSA-CHR-70007

"Rainjoy 600X472mm AISI 304 stainless steel in chrome finish with RGB LED lights remote control & with installation kit for false ceiling

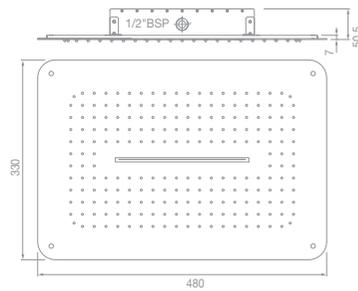

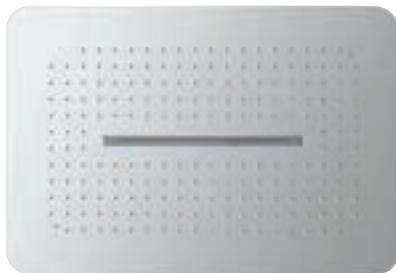

- Chromo therapy (RGB): LED x 0.23W with 12V Power Supply (SMPS) Including Controller, connecting to AC 100-240V, 50-60Hz
- 3-functions
 - Rain • Intense • Water Column"

OSA-CHR-70009

"Rainjoy 600X472mm AISI 304 stainless steel in chrome finish with RGB LED lights remote control & with installation kit for false ceiling

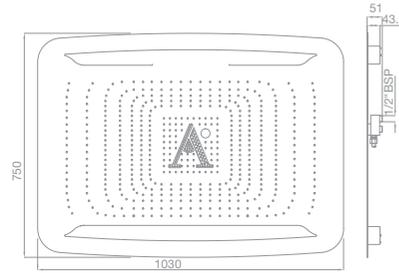

- Chromo therapy (RGB): LED x 0.23W with 12V Power Supply (SMPS) Including Controller, connecting to AC 100-240V, 50-60Hz
- 3-functions
- Rain • Intense • 2 X Waterfall "

OSA-CHR-70013

"Rainjoy 480X330mm AISI 304 stainless steel in chrome finish with installation kit for false ceiling

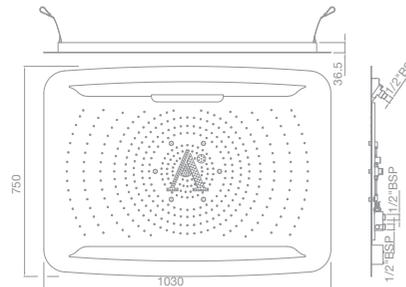

- 2-functions
- Rain • Waterfall"

OSA-STL-70011

"Rainjoy 1000X750mm AISI 304 stainless steel in polished finish with RGB LED lights remote control & with installation kit for false ceiling

- Chromo therapy (RGB): LED x 0.23W with 12V Power Supply (SMPS) Including Controller, connecting to AC 100-240V, 50-60Hz
- 4-functions
 - Rain • Intense • Waterfall • Water Column

OSA-STL-70015

"Rainjoy 1000X750mm AISI 304 stainless steel in polished finish with RGB LED lights remote control & with installation kit for false ceiling

- Chromo therapy (RGB): LED x 0.23W with 12V Power Supply (SMPS) Including Controller, connecting to AC 100-240V, 50-60Hz
- 4-functions
 - Rain • Intense • Waterfall • 6 X Mist "

OSA-STL-70015SH iV6

"RainJOY 1000X750mm AISI 304 stainless steel in polished finish with RGB LED lights remote control & with installation kit for false ceiling

- Chromo therapy (RGB): LED x 0.23W with 12V Power Supply (SMPS) Including Controller, connecting to AC 100-240V, 50-60Hz
